Donations

Home - Donations

Kwong Wai Shiu Hospital was founded with the objective of providing healthcare services to the needy people within our community. Till today, we strive to make our services as affordable as possible despite the increasing operating expenses.

We rely on the generosity of people like you to continue providing affordable healthcare services to the less privileged because every life deserves our best. We need your support and every cent counts in making a little go a long way towards improving the lives of our patients.

All cash, cheque and cash equivalent (NETS / Credit Card) outright donations are tax deductible and receipts will be issued.

Donation Methods

Note: To qualify for tax deductions for the current year of assessment, we would be most grateful if your kind donations be made at least 5 working days before 31 December as the banking system takes some time to credit our account.

Dear friends and supporters of KWSH,

As the number of donations made using our charity vouchers has been declining to very low levels, please be informed that this mode of donation will be discontinued with immediate effect. You may give to KWSH via other donation methods listed here.

Thank you and we look forward to your continued support!
