Bright Hill Evergreen Home is a 436-bedded, accredited non-profit nursing home providing quality health care and shelter for the disadvantaged and aged sick, regardless of race, language or religion. We aim at alleviating their hardships through holistic nursing and medical care.

We believe that our residents should enjoy life to the fullest encompassing gracious and healthy living, at the same time minimizing ill health and retaining maximum use of their physical and mental faculties.

Our Home started out at Bright Hill Road on 3 July 1983 providing residential care to 180 residents before shifting to our current location at 100 Punggol Field on 8 March 2013. It has been granted Institutions of Public Character (IPC) tax-exempt status since 15 June 1993.

We provide high quality round-the-clock nursing care to residents by professionally trained nurses, assistant nurses, nursing aides and healthcare attendants.
